

Aaditya Hari Nair

•(412) 880-2946•aadi.nair20703@gmail.com • github.com/AadityaGithubFirst • www.linkedin.com/in/aadityahnair • aadityagithubfirst.github.io • Pittsburgh, PA

EDUCATION

Carnegie Mellon University

Masters of Science in Data Analytics for Science

GPA: 4.00/4.33

Relevant coursework: Large Scale Computing in Data Science, Advanced NLP, Neural Networks and Deep Learning in Science, Computer Vision

Pittsburgh, Pennsylvania

May 2025

Ramrao Adik Institute of Technology

Bachelor of Technology in Computer Engineering with a minor in Data Science

GPA: 9.27/10

Relevant coursework: Machine Learning, Data Warehousing and Mining, Soft Computing, Big Data Analytics

Navi Mumbai, India

May 2024

SKILLS

Programming: Python, R, C, Java, JavaScript, PHP, HTML, CSS

Database: MySQL, Firebase, MariaDB, PostgreSQL

Operating Systems: Windows, Linux

Language: English, Hindi, French, Malayalam

Software Knowledge: MATLAB, PyTorch, TensorFlow, PowerBI, Tableau, Hugging Face, pyspark, Kubernetes

PROFESSIONAL EXPERIENCE

Carnegie Mellon University

Reddit FinOps Capstone Project

Pittsburgh, PA

Jan 2025 – Apr 2025

- Examined internal BigQuery usage by examining job logs, metadata and query execution to identify inefficient operations
- Optimized data workflows and compute strategies to improve query efficiency and reduce computational costs
- Facilitated knowledge-sharing sessions with data engineers and analysts to develop predictive models which estimated resource consumption of queries, leveraging collective expertise in Python, PyTorch, and Spark to create solutions to benefit the entire organization

Urbanaut Travels and Experiences Pvt. Ltd

Data Science Intern

Mumbai, India

Feb 2024 – Mar 2024

- Developed and implemented an interactive Google Looker Studio dashboard analyzing clientele distribution patterns, resulting in an increase in targeted marketing efficiency and a boost in sales in niche travel experiences
- Conducted advanced data analysis using Python and Pandas to uncover correlations between customer demographics and travel preferences, leading to focusing on 3 new high-potential market

Koyé Pharmaceutical

Computer Science Intern

Mumbai, India

Jun 2022 – Jul 2022

- Architected and implemented an on-premises email server solution, migrating from cloud services, resulting in a reduction in annual IT infrastructure costs and improved data sovereignty
- Designed a server hardware configuration with resource allocation, improving email processing speeds while lowering overall energy usage, supporting both operational performance and environmental responsibility

PROJECTS

Ramrao Adik Institute of Technology

Deep Fake Image Detection

Mumbai, India

Fall 2023

- Curated a diverse dataset of 10,000+ images, balancing authentic and deep fake examples across various categories, ensuring robust model training and evaluation
- Engineered a convolutional neural network using PyTorch, incorporating advanced techniques such as transfer learning and data augmentation to extract and studied subtle image artifacts indicative of manipulation
- Attained a 93% accuracy in deep fake detection on a test set, with a false positive rate of less than 2%, outperforming baseline models by 15%. (Link: <https://github.com/AadityaGithubFirst/DeepFake-Detection> no dataset)

Carnegie Mellon University

Detection of Malaria in Red Blood Cells

Pittsburgh, PA

Spring 2025

- Built and trained a CNN model from scratch to classify single-cell images as parasitized or uninfected by Plasmodium, resulting in a Kaggle submission. Applied data preprocessing, model architecture design, and hyperparameter tuning to optimize performance. Achieving an accuracy of 94.6% on an unlabelled test dataset. (Link: <https://github.com/AadityaGithubFirst/Detection-of-Malaria-in-Red-Blood-Cells>)

LEADERSHIP

R & D Head IETE

Aug 2023 – May 2024

- Organized and ideated interesting workshops based on trending topics
- Researched and analyzed areas the club could explore so as to get a greater number of attendees to a workshop
- Entrusted with the goal to teach and produce informative and interactive lectures with a team of peers
